

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

additions — *Sterna longipennis*, *Lobipes lobatus*, *Tanygnathus megalorhynchos* — collected by the author in 1906, and describes five new species and nine new subspecies, also all but three collected by the author during his explorations in the military service in 1904–1907.

The second paper is a report on Dr. Bartsch's collections¹ made chiefly in the Philippine Islands, but which include 7 species taken at Sandakan, Borneo, 5 taken at Guam Island, and 10 taken at Midway Island. The Philippine list includes 122 species and subspecies, two of the latter being described as new, all collected by Dr. Bartsch in 1908. The collection is said to fill many important gaps in the National Museum series of Philippine birds. — J. A. A.

Brooks on Birds Found in West Virginia.²— According to a note of explanation signed by the author, this 'Report' is a descriptive catalogue of a collection of mounted birds placed in the rooms of the State Board of Agriculture of West Virginia in November, 1908, and is not an attempt to give a complete list of the birds of the State, as the cover title of the 'Report' might seem to imply. This collection contains 331 specimens, representing 193 species, while the total list of West Virginia birds known to the author is 250. The caption of the list is: 'A Descriptive Catalogue of the Birds in the Ornithological Exhibit of the West Virginia Board of Agriculture.' It describes the character, as to age, sex and season, of the birds exhibited, with a brief statement of the range of the species, and of the manner of their occurrence in West Virginia, often with definite records of capture in the case of rare species; also a brief statement of the breeding range, nesting habits and food. While thus prepared with a view to local use, it contains matter of faunistic value. Four excellent colored plates illustrate the Rose-breasted Grosbeak, Blue Jay, Baltimore Oriole, and Purple Finch, all from the National Association of Audubon Societies' series of 'Educational Leaflets,' originally appearing in Vol. IX, 1908, of 'Bird-Lore,' though we here find no reference to the fact of their previous publication. — J. A. A.

Dearborn on Birds from British East Africa.³— This is an annotated list of the birds collected by Mrs. C. E. Akeley, on the last expedition of the Field Museum of Chicago to East Africa during the years 1905–07, under the direction of Mr. C. E. Akeley. An accompanying map indicates the

¹ A List of the Birds collected by Dr. Paul Bartsch in the Philippine Islands, Borneo, Guam, and Midway Island, with Descriptions of three new Forms. By Edgar Alexander Mearns, Associate in Biology, U. S. National Museum. Proc. U. S. Nat. Mus., Vol. XXXVI, No. 1683, pp. 463–468. Published May 27, 1909.

² No. 12. Report of the West Virginia State Board of Agriculture, for the Quarter ending December 31, 1908. [Subtitle:] List of Birds Found in West Virginia. Charleston, W. Va., 1909.— 8vo, pp. 1–65, and 4 col. pl.

³ Catalogue of a Collection of Birds from British East Africa. By Ned Dearborn, Assistant Curator of Ornithology. Field Museum of Natural History, Publication 135 = Orn. Series, Vol. I, No. 4, pp. 141–190. May, 1909.
